

2021-2022 ASHBY ANNUAL PARISH MEETING – ASHBY WEBSITE REPORT

A quick reminder that the Parish website is at www.ashbystmary.org.uk.

The website aims to provide parishioners with the usual news and business matters of Ashby Parish Council, particularly its meeting agendas and minutes, financial spending and budgets, and planning matters.

On behalf of your parish council, I continue to operate the parish site as best and as often as I can. During a particularly challenging year, I have made ?? updates which have included ??? amendments to our website.

The main additions to the website during the past year have been the plethora of documentation to satisfy the council's statutory requirements thrust upon the council by the its intrepid clerk. These include financial information such as annual governance statements, employers liability and financial standing orders plus auditor details, notably internal and external auditor reports, annual audit, bank reconciliations etc.

Ashby Rainman's monthly statistics continue to be forwarded and published for which my thanks are duly recorded.

Because in the past year there have been many occasional tweaks to the website I now only give email notice of all major website updates to residents who have asked to receive them via the parish council's free established Ashby Update Service. The Update Service still includes the free-to-join Ashby Heating Oil Syndicate for all domestic heating oil users in the parish. Your parish council remains pleased to continue to offer these services. Your council is still satisfied the website provides a genuine benefit to our community and offers good value for money.

That concludes my 2021-22 report on the Ashby St Mary website.

Mark Rolph - Parish Councillor
